**Assignment/Project/Report Cover Sheet**

Student Name (lecture group no)	Student ID Number	Group	Signature
NURUL ADRIANA BINTI AFFENDY	100613	G02	
DAYANG SITI ZAKIRAH BINTI ABANG ZULKARNAINI	98677	G02	
NAFISAH AMANI BINTI SHAHRIN SHAH	97616	G02	
SHAMRIN BIN AL IDRUS	100973	G02	

Course Code: TMF2034	Course Name: Database Concept and Design
Assignment Title: Project	Lecturer: Dr Lee Nung Kion
Due Date: 26 June 2025	Date Submitted: 25 June 2025

This cover sheet must be completed, signed and firmly attached to the front of the submission. All work must be submitted by the due date. If an extension of work is granted, an extension acknowledgement slip must be signed by the lecturer/tutor and attached to the assignment/project/report. Please note that it is your responsibility to retain copies of your assignment.

**Plagiarism and Collusion are methods of cheating that are addressed in the Peraturan Akademik Universiti Malaysia Sarawak para 11: Etika Akademik**

**Plagiarism** Plagiarism is the presentation of work which has been copied in whole or in part from another person's work, or from any other source such as the Internet, published books or periodicals without due acknowledgement given in the text.

**Collusion**

Collusion is the presentation of work that is the result in whole or in part of unauthorized collaboration with another person or persons.

Where there are reasonable grounds for believing that cheating has occurred, the only action that may be taken when plagiarism or collusion is detected is for the staff member not to mark the item of work and to report or refer the matter to the Dean. This may result in work being disallowed and given a fail grade or if the circumstances warrant, the matter may be referred to a Committee of inquiry for investigation. Such investigation may result in the matter being referred to the University Discipline Committee, which has the power to exclude a student.

**Upon placing signature above, I certify that I have not plagiarized the work of others or participated in unauthorized collusion when preparing this assignment.**

**I also certify that I have taken proper care in safeguarding my work and have made all reasonable efforts to ensure that my work is not able to be copied.**

[Add New Vehicle](#) [Back to Homepage](#)

Display vehicle list.

The screenshot shows a modal dialog titled "Edit Vehicle". The form contains the following fields:

- Vehicle Name: Toyota Vios
- Vehicle Type: Sedan
- Year: 2020
- Plate Number: SAR1234
- Seat Count: 5
- Colour: White
- Daily Rate (RM): 400.00
- Rental Status: Available

At the bottom of the form are two buttons: "UPDATE VEHICLE" (highlighted in yellow) and "Back to Vehicle List".

Edit vehicle details.

The screenshot shows a modal dialog titled "Add New Vehicle". The form contains the following fields:

- Vehicle Name: Enter vehicle name
- Vehicle Type: Enter vehicle type
- Year: Enter vehicle year
- Plate Number: Enter plate number
- Seat Count: Enter seat count
- Colour: Enter vehicle colour
- Daily Rate (RM): e.g. 150.00
- Rental Status: Available

At the bottom of the form are two buttons: "ADD VEHICLE" (highlighted in yellow) and "Back to Vehicle List".

Add new vehicle.

haii, kmk dh update file edit dengan file reports Edited 1:24 AM ✓

Rubrics						
Relational Database Diagram (13 marks)						
Criteria	1	2	3	4	5	Mark
<b>Relational database diagram (5 marks)</b>	Relational database diagram is mostly incomplete and incorrect	Relational database diagram is partly complete but contains major missing attributes	Relational database diagram is mostly complete but has some missing or improperly defined attributes	Relational database diagram is complete but has minor inappropriate key attributes	Relational database diagram is complete, with key attributes appropriately assigned	
<b>Relationship &amp; Cardinality (3 marks)</b>	Relationship and cardinality are mostly assigned incorrectly	Relationship and cardinality are partially assigned correctly	Relationship and cardinality are correctly assigned			
<b>Normalized database (5 marks)</b>	Major issues with redundancy, partial dependencies, and transitive dependencies	Some tables (>50%) fail to achieve 3NF, with partial or transitive dependencies causing major redundancy	Tables (>70%) mostly follow 3NF, but some partial or transitive dependencies exist, leading to minor redundancy and affecting overall integrity	Most tables (>80%) follow 3NF with minor issues in redundancy, but they do not affect overall integrity	All tables strictly follow 3NF. No redundancy, and all non-key attributes are fully functionally dependent on the primary key (s)	
Implementation of database application (25 marks)						
Criteria	1	2	3	4	5	
Add (3 marks)	Able to insert data for some entities but with major errors	Able to delete data for most entities but with minor errors	Able to insert data for all entities effectively			
Delete (3 marks)	Able to delete data for some entities but with major errors	Able to delete data for most entities but with minor errors	Able to delete data for all entities effectively			

<b>Functionality marks</b>	<b>Update (3 marks)</b>	Able to update data for some entities but with major errors	Able to update data for most entities but with minor errors	Able to update data for all entities effectively			
<b>Data Manipulation</b>	<b>Query (Accuracy) (5 marks)</b>	Manipulate most required data components poorly	Manipulates some required data components but with major inaccuracies	Manipulates most required data components, but some have minor inaccuracies	Manipulates all required data components, with minor inaccuracies	Manipulates all required data components accurately	
	<b>Query (Optimization) (3 marks)</b>	Queries are mostly not optimized	Queries are partly optimized	Queries are efficiently optimized			
	<b>Many-to-many data (3 marks)</b>	Able to capture many-to-many data (>25%)	Able to capture many-to-many data (>50%)	Able to capture many-to-many data (>90%)			
	<b>Dummy data (2 marks)</b>	Data quantity is sufficient for basic functionality and manipulation	Sufficient quantity of data provided to test all functionality and manipulation				
<b>Creativity (3 marks)</b>		The application integrates one creative feature that provides minimal enhancement to its usability	The application integrates one creative feature that moderately enhances its usability	The application integrates one creative feature that greatly enhance its usability			
<b>Presentation (12 marks)</b>							
<b>Criteria</b>	<b>1</b>	<b>2</b>	<b>3</b>	<b>4</b>	<b>5</b>		

<b>Demonstration of Application (5 marks)</b>	Demonstration of required functionality and data manipulation is unclear	Demonstration of required functionality and data manipulation is mostly unclear	Demonstration of required functionality and data manipulation is partly clear	Demonstration of required functionality and data manipulation is clear	Demonstration of required functionality and data manipulation is very clear	
<b>Effort (2 marks)</b>	All required functionality and data manipulation are partially working	All required functionality and data manipulation are working				
<b>Q&amp;A (5 marks)</b>	Responds poorly to questions or provides irrelevant responses	Responses are unclear or provide incomplete answers	Responds adequately to questions but shows minor gaps in understanding	Responds to most questions with good understanding	Responds effectively to all questions, demonstrating thorough understanding of the application	
<b>Total = 50 marks</b>
